Grade D

Grade. Start with A+. No 96kHz sound goes to A. Flunks 3 DVDitis tests, goes to D

Supershots

$$\begin{array}{r} 9 \\ 7 \\ \hline 16 \end{array}$$

Conductor shots

$$\begin{array}{r} 35 \\ 31 \\ \hline 66 \end{array}$$

Performance Notes: Anthill shot before start. No opening VO shot for orientation. And then anthill between each movement - don't count. Not a single VO shot of the orchestra playing. I don't recall any other video with no WO shot at all. Flunks all tests on DVDitis, and badly. Over a 1/3 of the video is the C!! Supershots are pitiful. DVD pace.
